SAMSON KAWJAREE, PE

TITLE Project Manager | OFFICE Los Angeles, CA

With over 13 years of civil engineering experience in the water resources, land development and survey fields, Samson has acquired proficiency in the design and analysis of commercial, residential and institutional projects.

Samson has been involved in all stages of civil design, ranging from the design development and construction document phases to final implementation in the construction phase. He has prepared EIRs, hydrology and hydraulic studies/reports, engineering research/reports and quantity/cost estimate documents. In addition, Samson has designed tentative tract maps, fine/mass grading and site utilities, including storm drain, sewer and water design. He also has field survey experience and has created ALTAs and topography plans. Samson handles intensive and fast-paced work environments with effectiveness and efficiency, always bearing in mind the project's schedule, budget and the synergy within the design team. He has coordinated and consulted with clients, contractors and multi-disciplinary team members in the implementation of multiple projects.

Samson is currently providing services for the Highpark master planned community in Los Angeles for iStar Financil, Inc., an offsite street improvement project that encompasses multiple jurisdictions, including Caltrans; Sagewood residential project in Harbor City for LaTerra Development; Costco improvement projects in Norwalk; Elysian Park Lofts, located between Dodger Stadium and the historical State Park for Lincoln Property Company; The Roy@Overland, a mixed-use development in Los Angeles; and Brookfield Homes' Cameo residential project in Whittier.

A dedicated professional, Samson is widely respected for his meticulous attention to detail and for his creative design solutions. Samson's strong technical skills, responsive attitude and the willingness and ability to take on new opportunities for growth, are all valuable assets to Fuscoe.

FEI TEAM MEMBER SINCE 2015
